

**CLAIM AMENDMENTS**

Claims 1-33 (canceled)

F 1  
Claim 34 (currently amended): An extruded anti-tack polyurethane film exhibiting a thickness of from 10 to about 500 mils and having both an interior portion and exterior surface therein, said extruded film comprising a silver-based inorganic antimicrobial compound selected from the group consisting of silver zirconium phosphate compounds, silver-based zeolites, silver-based glasses, and any mixtures thereof, in discrete areas of said extruded film wherein at least some of said antimicrobial compound is present at and extending outward from said exterior surface of said extruded film and at least some of said antimicrobial is present within said interior of said extruded film; wherein said film exhibits a tackiness less than that of the same type of extruded polyurethane extruded film without said silver-based inorganic antimicrobial compound present at and extending outward from the surface thereof; [and wherein said extruded polyurethane film does not require the presence of any other anti-tack surface coatings or additives in order to exhibit such anti-tack properties.]

Claim 35 (canceled)

Claim 36 (currently amended): The extruded anti-tack polyurethane film of Claim 34 wherein said antimicrobial compound is at least one silver zirconium phosphate compound.
